PROFESSIONAL SUMMARY

Full-stack developer and B.Tech Information Technology student at PICT (2024–2028), with hands-on experience building backend-driven applications and AI-integrated systems. Enjoy solving DSA problems and continuously learning through practical software development.

EDUCATION

Pune Institute of Computer Technology (PICT)	2024–2028
<i>B.Tech – Information Technology</i>	CGPA: 8.96
SGPA: Sem 1: 8.9 Sem 2: 8.5 Sem 3: 9.09 Sem 4: 9.36	HSC: 82.50% SSC: 94.5%

TECHNICAL SKILLS

- **Languages:** Java, Python, C++
- **Backend:** Node.js, Express.js, Flask, JavaScript
- **Frontend & Databases:** React, HTML/CSS, MongoDB, MySQL
- **APIs & Integrations:** Gemini, Groq, Razorpay, Gmail, WhatsApp
- **Tools & Concepts:** Git, GitHub, Postman, DSA, OOP, DBMS, Operating Systems

KEY PROJECTS

University-Level Exam Scheduling System	<i>Flask, Python, MongoDB</i>
github.com/reva-32/timetable-system	

- Building a conflict-free exam scheduling system using DSATUR-based graph coloring for Course → Slot allocation.
- Uses greedy room allocation and constraint-based teacher assignment with teacher preference support.

DevGuard – Cybersecurity CLI Tool	<i>Python, PyPI</i>
github.com/reva-32/devguard-cli	

- Built and published `devguard-cli` (v1.0.1), a secret-scanning CLI using regex and Shannon entropy analysis to detect exposed credentials.
- Added manual/pre-commit scanning, configurable rules, allowlists, and local audit logging.

Payment Recovery Engine – Resurrect	<i>Node.js, Express, MongoDB, Razorpay, Gemini</i>
github.com/reva-32/Resurrect	

- Built a payment recovery platform using deterministic rules and AI-assisted decisions to recommend recovery actions for failed payments.
- Integrated Razorpay Payment Links/webhooks with bounded retries, merchant-scoped data, JWT authentication, and chatbot-based insights.

MSME 360	<i>Node.js, React, MongoDB, AI</i>
<i>In Development</i>	

- Developing a unified platform that brings orders from WhatsApp, Instagram, Gmail, and Facebook into a centralized business dashboard.
- Building workflows for vendors, finances, GST reminders, invoices, payments, and AI-assisted order processing.

HACKATHON EXPERIENCE

Code The Cause – Round 3 Finalist	<i>PICT Clubs</i>
• Contributed to an inclusive learning platform with academic tracking and an AI-assisted chat interface.	
PVG Ignition 24-Hour Hackathon – Finalist	<i>PVG College, Pune</i>
• Contributed to a smart-contract-based fund allocation system.	

CERTIFICATIONS & ACHIEVEMENTS

- **NPTEL – Fundamentals of Digital Marketing:** Elite Topper, 95% (Top 2% Nationally)
- **NPTEL – Python for Data Science:** Certified
- **Java Backend Development (Spring Boot):** Completed 40-hour hands-on program; built a CRUD Employee Management System using Maven, IntelliJ, and Postman.
